

DEFIANT ABLATION INC

CARAPACE BODY KITS

READY FOR FIELD ASSEMBLY

DEFIANT CARAPACE CONCEPT

During World War II **Liberty** ships were manufactured at breakneck speed, largely due to the fact that the U.S. merchant fleet was unprepared at the time for the increase in transoceanic shipping of war materials and troops.

In response, an emergency ship building program was created in 1941 that utilized an assembly line to produce mass quantities of standardized ships - ships otherwise known as "**Liberty ships.**" The ships were of a modular construction that could be manufactured in sections by various cooperating steel fabricating firms. The kits were then assembled at various shipyards around the United States. However, the exceptional concept was initially flawed with buckling steel plates, problems with rivets, material and welding deficiencies that on occasion proved dangerous. Once the deficiencies were recognized, stringent inspection programs were implemented and over time the U.S Navy remedied most of the deficiencies. One deficiency that was never remedied by the end of the War was the use of asbestos.

**DEFIANT CARAPACE KIT WITH
CHASSIS PREPERATION & CARAPACE ASSEMBLED IN 7 DAYS BY SKILLED
FITTERS/ASSEMBLERS/PAINTERS**

DOORS HINGED & FITTED FOR PRE-INSPECTION PRIOR TO SHIPMENT

**DEFIANT CARAPACE BODY PRE-INSPECTION READY TO
STRIP & PACKAGE
OPTIONAL VISOR**

RUST BULLET, PRIMED BODY READY TO SHIP

**RUST BULLET-PRIMED BODY WITH HINGES FITTED FOR DOOR
FITMENT INSPECTION**

**OPTIONAL, DOOR LOCKS, HANDLES, LIGHTS, WINDOW FRAMES, REAR
BUMPERS, ANTENNA & HANDLES**

OPTIONAL-LIGHTS, RADIATOR GRILL AND ARMORED LOUVER BEHIND

DEFIANT HOOD READY TO SHIP

MARKER LIGHTS AND FIRE EXTINGUISHER OPTIONAL

DEFIANT DOORS PACKED, READY TO SHIP

ADDITIONAL OPTIONAL ITEMS

IDENTIFIED TO PURCHASERS WITH BILL OF MATERIALS (BOM) AND SUPPLIERS CONTACT INFORMATION AND PURCHASE ORDER NUMBERS & DEFIANT ABLATION INC'S ASSEMBLY INSTRUCTIONS

OPTIONAL ITEMS MANUFACTURED BY DA SUCH AS UPGRADED ARMOR WILL BE BASED ON A KIT THAT WILL BE A BOLT-ON INTERIOR APPLIQUE ARMOR KIT

Field Assembly Of Modular Appliqué Armor Kit

Our unique add-on appliqué system installs without any cutting, welding or drilling on the base vehicle.

Our line of add-on armor products can meet your performance, cost, and weight objectives. Add-on armor is available in High Hard steel, ceramic, metal and composite, and ceramic composite versions.

Our add-on armor is designed to be easily attached to any tactical vehicle.

CARAPACE ASSEMBLY BY END-USER'S FITTERS
